Zenitel integrates with Gallagher

Combine Zenitel's unmatched audio capabilities with Gallagher Command Centre

Combining Zenitel's intercom devices with Gallagher's robust Command Centre platform delivers complete control over every aspect of your site and buildings.

Zenitel audio solutions provide a crucial element that ensures high organizational efficiency and the safety & security of your assets & people.

- Enabling everyone to hear, be heard and be understood, every time and everywhere.

The benefits of integrated communication

This integration will further unify your control room solution, enabling security personnel to handle intercom calls in Command Centre.

The Zenitel/Gallagher Command Centre integration adds voice communication to your security solution, simplifying how you communicate with people across sites and buildings.

Easy integration and configuration

It's easy to connect and configurate Zenitel Intercom Stations to Gallaghers Command Centre v8.80.

In Gallagher's Command Centre, Zenitel intercom stations are added as SIP devices. This enables incoming calls to be routed to workstations and workstations to call out to intercom stations.
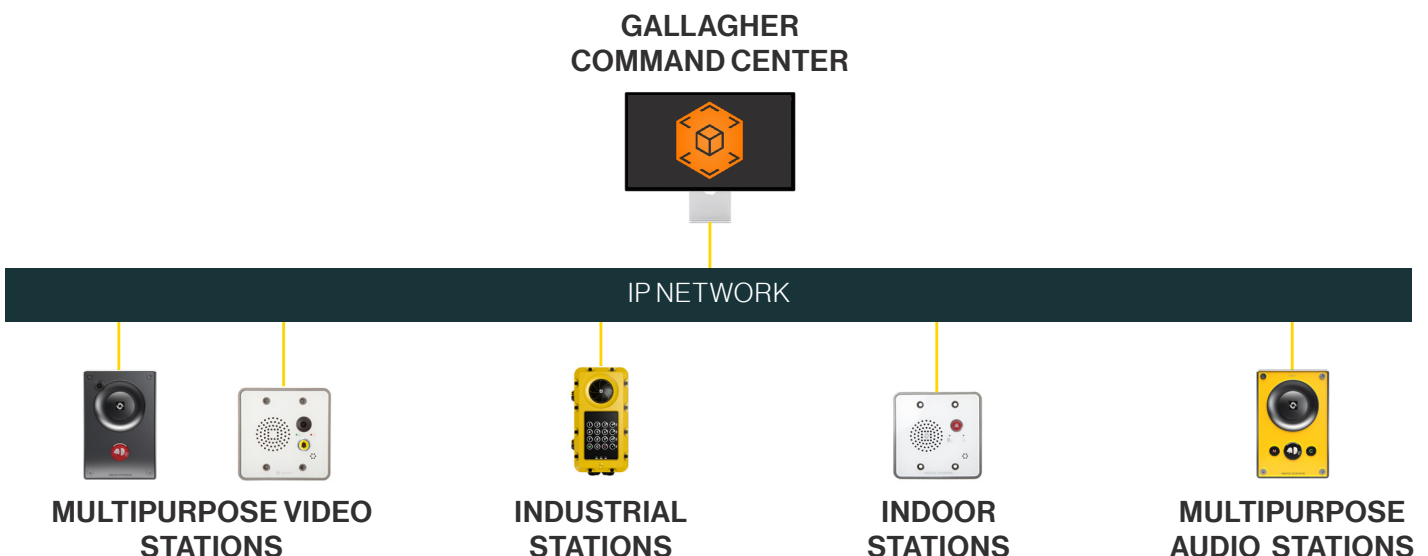

On the Zenitel intercom stations the DAK key is configured to call the IP address of the Gallagher server, so calls are routed to Command Centre. No other configuration is required.

Features from operator workstation:

- ✓ View intercom stations and statuses in the Command Centre interface
- ✓ Signals that an incoming call is waiting
- ✓ Answer call via map viewer or intercom viewer
- ✓ Calls can be placed on hold
- ✓ Calls can be transferred to other operators
- ✓ Alarm if intercom stations offline/disconnected

Tested and Verified:

- ✓ Zenitel and Gallagher have worked in partnership prior to the official launch of Command Center 8.80 to ensure a seamless integration

Communication and control for all of your facility's entry points

Across all industries and facilities, Zenitel's audio intercom solutions give you and your security teams flexibility, control and peace of mind when managing access points and entryways.

Education - Keep students, teachers and staff safe

Safety is essential for any learning community. Zenitel intercom stations at doors, in hallways and common areas provide teachers and students easy access to help and strengthen the control of who enters the premises.
Healthcare - Provide a safe environment for personnel and residents

Zenitel intercom stations ensure quick and reliable communication for hospitals, retirement homes, and clinics, with a range of stations made for doors, help points and isolation rooms.

Manufacturing - Protecting people and plant

Zenitel intercom stations provide clear and powerful audio regardless og background noise in addition to strong protection from dust, particles and water. This makes them ideal for use in production areas.

Corporate and public - keeping employees and visitors safe

With a range of outdoor and indoor intercom stations, you can identify visitors and guide them to where they need to be.

Verify Visitor Identity
Provide identity verification through both visual and audio communication and improve the security of your facility for staff and visitors.

Supervise and Monitor
Observe and verify status of each intercom device.

Quick and Easy Set-Up
Intercom station is programmed to call the IP address of the Gallagher server. No other configuration is required.

Integrated Solutions
Integrates access control, perimeter security and communication, improving organizational efficiency and business continuity.

Protecting your site, staff and visitors is made easy thanks to our intercoms' extremely intelligible audio, high quality video and durability in the face of adverse and challenging environmental conditions.

All Zenitel IP Intercom stations support Zenitel/Gallagher integration, helping you meet all your communication needs across any entry points.

The features of Zenitel intercom Stations:

✓ Wide range of Intercom series to choose from for any environment and all kinds of weather conditions
✓ Delivers high quality HD audio as well as video
✓ Perform flawlessly both in normal as well as noisy environments
✓ Supports ONVIF and SIP standards, making installation and integration with other systems easy
✓ Ready to meet regulatory certifications that may be required by law
✓ Can operate for years with limited maintenance
